

Anastasiia Sira

SENIOR UX/UI DESIGNER

STATEMENT

UX/Product Designer with 5+ years of experience designing complex enterprise digital products and scalable UX systems. Focused on improving user journeys and business metrics through research and hypothesis-driven design.
Experienced in end-to-end design process, from problem discovery to validation and delivery. I specialize in simplifying complex workflows, building design systems and intuitive, clear, accessible UX.
Domains I worked in: SaaS, e-commerce, Marketplace, FinTech, GovTech.

WORK EXPERIENCE

EPAM Systems
NOV'20 – PRESENT

UX/UI Designer Designer

Worked on multiple complex products across different domains, where I:

- Led redesign of complex web platforms and portals, simplifying user journeys and improving usability across key flows
- Identified usability issues through user research (interviews, usability testing) and data insights, translated findings into actionable design improvements to improve usability
- Acted as a sole designer on multiple projects, owning the full design process and driving design decisions in collaboration with stakeholders
- Created and validated interactive prototypes in Figma, supporting alignment and responsive experience for web and mobile
- Built and evolved Design Systems to ensure consistency and scalability across products,
- Applied accessibility best practices (WCAG 2.2) to improve inclusivity across design
- Collaborated cross-functionally with PMs, developers, QAs, and business stakeholders to align design solutions with business goals and technical constraints.

Getmancar
SEP'20 – NOV'20
